

We are hiring industry leaders

CHUBB®

Who are We?

Chubb is the world's largest publicly traded P&C insurance company having operations in 54 countries and writing \$US 40 billions of premium.

The Chubb India office is growing fast and provides key support to the actuarial, risk, capital and data analytics teams across the globe. We work alongside the onshore teams, and very often as part of those teams, and we interact with global team members in the actuarial, underwriting and analytics departments on a day-to-day basis. We are building a center of excellence capability in key areas of technical work that are highly sought after from the actuaries in other countries. Our team on the ground includes senior actuarial and analytics professionals.

We work in a learning environment. This environment benefits our staff and enables us to deliver on the challenging projects that we deliver to global stakeholders.

Position:

Assistant Vice President – Reserving and Capital

Key Objective:

The role is to lead CBSI's Capital and Reserving Team. The team includes more than 20 actuaries and actuarial analysts and is growing. In addition to building strong relationships with the onshore actuaries you will provide technical guidance and be innovative in how you design work solutions.

Requirements:

- Qualified Actuary
- 12+ years of experience, mostly in general insurance
- Experience with leading teams
- Strong actuarial judgement and technical actuarial capability
- Experience building or conceptualizing automation solutions within the actuarial functions
- Proficient in using MS Office applications such as PowerPoint, Excel and Word
- Knowledge of applications such as SQL, R, and Python would be an added advantage
- Must possess excellent written and verbal communication skills
- Must be willing to work out of the Bangalore office
